Fall Convention
Hyatt Regency
Dearborn, Michigan**

NOVEMBER 26-27, 1982

Lot Inspection

All lots will be on view during normal Friday and Saturday bourse hours of the Michigan State Numismatic Society Convention prior to their being auctioned. At the Convention, we suggest early viewing to avoid last minute congestion and delays. Lots may be inspected in our East Lansing office by appointment during the two weeks preceding the sale.

Convention Hotel Reservations

Accommodations at the Hyatt Regency are available by advance booking. The local phone number of the Hotel is (313) 593-1234. Reservations can be placed through this number as well as phone bids on the days of the sale. (Phone bids must be confirmed in writing.)

Lot Information

If you wish additional information on any lot, please call or write. Estimates representing our general impression of market prices at the time the lots were cataloged are published for your convenience. Prices may go higher or lower. We have made every effort to be accurate in grading. You may feel confident that the condition of each lot is as described.

We can furnish photos of nearly all lots upon request at a charge of \$1.00 per item (not lot).

Subscriptions and Prices Realized

Prices realized are available approximately five weeks after the closing date at \$3.00 each or \$15.00 by annual subscription (Europe and Latin America \$20.00; Africa, Asia and Oceania \$25.00). An annual subscription will include a minimum of five catalogs. (Bound copies of our 1981 and 1982 catalogs including prices realized are available at \$20.00 for each year).

Future Auctions

We are now planning our 1983 auction schedule. Sales will include ones at the same time as the Chicago International Coin Fair in March and the Michigan State Numismatic Society's Spring Convention in April. Preference is given to early consignments. We have been requested to conduct ten other convention auctions between now and the Fall of 1984. Our auction schedule will be published after November.

Notice to Sellers

We are catalogers and auctioneers of fine numismatic properties — Ancient to Modern — with clients in 125 Countries.

Consignments are accepted at any time for future sales. We would be pleased to hear from you to discuss early planning regarding the possible consignment of your material.

If your collection or the timing warrants it, we can issue a fully researched, attractive, illustrated catalog 60 days after the delivery of your collection.

Consignment Information

Consignments are accepted for auction at any time for future sales. Our numismatic firm is one of the few pure auction houses in existence with most others being subsidiaries of retail businesses. Usually more than 100 consignors are represented in each sale from all continents.

Commissions are charged on a lot by lot basis which varies by the value and the type of material. The minimum fee is \$15 per lot or the following percentage rates, whichever is higher.

Fee Structure

Type of Material	Sale price \$250 or more per lot	Sale price less than \$250 per lot
Coins and Paper Money	15%	20%
Ancients, Tokens, and Medals	20%	25%
Literature	30%	

On extreme rarities and large collections, fees are negotiable. No buyer's fees are charged as we find this actually depresses prices and frequently gives the auction house a larger total percentage commission than otherwise.

Reserve Bids: If executed, our minimum fee is \$15 per lot or 5% of the knock down price but no more than \$100 per lot. This applies only if the reserve bids are submitted with the consignment. If we feel a lot will not sell at or above a reserve, we will reject this lot and return it to the consignor at no charge. In the case of reserves not submitted with consignments, they are treated as bids and the full commission rate is charged to the consignor if the reserve is the winning bid.

Settlement checks are issued 45 days after a sale on all lots with a completed sale.

We do reserve the right to recatalog, regrade and estimate lots according to our established standards.

Material should be shipped to us by registered mail. An acknowledgement of receipt of your shipment will be sent along with a confirmed auction contract. Additionally, material can be hand delivered personally by the consignor to our offices, sent by courier or hand delivered to George Beach, our convention agent. We generally have sales scheduled every two to three months.

While in our hands, consignment material is insured by Lloyd's of London for its full estimated value as published in our auction catalog.

We would be pleased to provide potential consignors our references if desired. Additional consignment information will be provided upon request containing our auction contract and listing our schedule.

At least 5000 copies of each of our catalogs will be mailed to subscribers and active clients. Of these, approximately 1000 catalogs will be sent overseas. Our total mailing list is now in excess of 50,000 names of actual auction bidders, individuals, firms and institutions who at one time or another requested a catalog.

We are mainly interested in consignments of auctionable material, both in terms of rarity and grade, since they realize the best return due to demand and popularity. We prefer listing lots with minimum values in excess of \$60 each without bulk lotting. Items of lesser value are normally grouped together. We are one of the few auction houses that will accept total collections for auctions.

We discourage advances although arrangements can be made for interest bearing advances at up to 25% of our estimated value of a consignment.

I would be pleased to discuss your potential consignment in confidence with you personally if you have any questions or concerns.

Tips and Strategies for Mail Bidders

Our reputation and typical high results at auction is mainly due to mail bidders who have become regular clients. We are always pleased to work closely with bidders in following their special instructions. Where possible, lots are purchased for mail bidders below their maximum bids. This occurs on about 20% of all lots. The competition is intense for desirable lots with many bids clustering near the same level. Estimates appearing in our catalogs are guides only. Popular and high grade material will frequently sell above estimates. Analyzing the results of our past sales, we have found that approximately 10% of the lots sell at top wholesale, 80% sell around full retail and the remaining 10% exceeds all our expectations.

The strategies and bidder techniques mentioned here are useful guidelines in bidding in any auction.

1. Always read the Terms of Sale and evaluate the auction houses. Not only are these different between auction houses but the terms may change from sale to sale for the same auction firm. Be aware of buyer's fees, Value Added Tax, handling and shipping fees along with the extent of guarantee, return privileges and late payment or storage charges.

2. As tie bids are received for many lots, one strategy is to bid early as preference is given to the earliest bid received. Preference on tie bids is also given to bidders who pay their accounts promptly and who do not make capricious returns.

3. Please sign your bid sheet and include your phone number. An unsigned bid sheet, may not have bids executed. If we feel a significant bidder error has been made, we will attempt to verify a bid by phone.

4. Bidding at a low level on many lots is a poor strategy due to the lack of success and also due to the time involved in preparing and processing such a bid sheet. Submitting numerous low bids is counter productive for everyone and does not establish your reputation as a credible bidder.

5. List your bids in numerical order instead of skipping around. This helps prevent bidder errors and is much easier for a clerk to enter your bids into the bid book. Always recheck your bid sheet.

6. Do not be afraid to bid over estimate if you feel a lot is worth it. Most tie bids occur on lower priced items. Bid the absolute maximum that any lot of interest is worth to you. Many lots are reduced significantly. Once a sale has been called, we can not increase your bid. We will always try to purchase the lot for you as inexpensively as possible.

7. If you want a percentage increase on any lot or lots, indicate this on your bid sheet. We much prefer that you do this on a lot by lot basis on a few lots rather than just checking an overall percentage increase box.

8. If you have a specific total limit on the amount of your purchase, we can generally follow your instructions even if you bid up to four times your total limit. We can enter your bids in the bid book or have one of our assistants represent you from the floor. This way you can submit more bids, increasing your chances of success without over extending your budget. This gives mail bidders one of the traditional advantages of floor bidders and also of participating successfully within their means.

9. If you are interested in purchasing just one lot of a type where several are offered, indicate special instructions to this effect. Just bracket those bids and mark "one only" or "alternate."

10. You may request photos or permission to view lots by mail. While there is a photo or shipping fee involved, this may answer specific questions you have about varieties or condition. The viewing privilege by mail is extended only to known clients in North America.

11. Become a subscriber. This will insure you receive catalogs by timely first class mail. Additionally, prices realized are sent to subscribers automatically. The PR's can be a useful guide to future bidding or purchases. It can also indicate areas where prices are declining or increasing and helps you evaluate your similar pieces in your own collection.

12. If you have any questions about lot descriptions, Terms of Sale, bidding procedures or estimates, call us at (517) 332-8581 between normal business hours 9 a.m. to 5 p.m. EST, Monday through Friday.

The Ancient Silver and Bronze Collection of Juan and Felipe Fragnoli of Buenos Aires, Argentina

Made available for Auction by
Cambio La Guaira of Caracas, Venezuela

Cataloged by
Carl Sandler Berkowitz

This ancient section of our auction catalog represents part of an extensive worldwide collection started in the 1920's and continued as a mutual collection by the brothers, Juan and Felipe Fragnoli.

Much of this material was acquired in Italy and the international market through major auction houses. However, the local numismatic reputation and social position of the two brothers was such that virtually every collection for sale in Argentina or available through estates over the past several decades was acquired intact by these gentlemen or examined by them prior to entering the commercial market. The majority of this collection was assembled prior to the 1950's. No duplicates or segments of their combined collection were sold until this year.

Their collection was one of a few remaining large, older numismatic holdings in Latin America with these ancients representing but a small fraction of the total scope and depth. We look forward to offering other impressive segments of this fine collection in future sales.

We want to thank the firm of Cambio La Guaira for selecting our firm to auction this collection. Additionally, we want to thank Carl Berkowitz for his excellent cataloging, updated attributions and authentication of this ancient collection in a comparatively short time period.

The Annual Fall Michigan State Numismatic Society Convention once again has all the potential for a very active show. We expect attendance and bourse activity to be high with many people coming from out-of-state. More than fifty dealers are on the waiting list for table cancellations. Actually, many dealers prefer a table at this convention more than many shows including the ANA.

Our auction offers an added element of excitement due to the extent of high quality material generally affordable to the average specialist collector. The Standing Liberty quarter and Michigan National Banknote collection is expected to generate intense floor competition. The small selection of nice pocket watches with their precise cataloging will be an intriguing diversion as many numismatists also collect them. The English section includes many desirable, scarce to rare items in high grade which is expected to appeal to mail and floor bidders alike. The ancient section represents the first time such a large ancient offering has appeared for auction in the Midwest, even though there are numerous ancient collectors and dealers located in this area of the country. Several collectors have changed their travel plans in order to attend these two sessions of the sale. We are holding the ancient sessions on Saturday to provide more viewing time. On Saturday, we will also be conducting a Young Numismatist Auction. If you have a young collector attending the convention with you, I suggest you make arrangements for them to attend the Young Numismatist Luncheon and Program Saturday at noon.

This auction represents our 50th sale and 10th year as a full time numismatic auctioneer. We did not try to produce a special catalog over and beyond our usual bill-of-fare for this sale. For the past decade, we have concentrated on building our reputation and one of the best auction mailing lists in the world along with emphasizing rare minors. We will not de-emphasize this but will start emphasizing a somewhat higher quality of material and start offering more institutional collections. Our price results speak for themselves and more institutions and estate holdings are being consigned in addition to that from collectors and dealers who were already aware of our reputation.

Our 1983 auction schedule will include a mid-March pre-CICF sale in Chicago and the Spring MSNS auction, April 22, 23 and 24th. Already these sales are filling up with quality ancient silver and gold, Canadian, German, Italian and Russian coins and medals. Early consignments are welcome as we currently have the extra time to immediately start cataloging for these sales. Additionally, we will be conducting the next INS auction, June 16, 17 and 18th in Arlington, Virginia. There is a distinct possibility that the Bureau of Engraving and Printing will be set up at this convention and that a souvenir sheet may be issued.

We published our commission rates on page 7 of this catalog. Additional information on consigning or answers to any specific questions will be promptly supplied. We do appreciate consignment referrals. Actually a larger number of important collections are in the hands of non-collectors than most people realize. Basically, these non-collectors, whether heirs or executors are never reached by the hobby press. These collections only go to auction via referrals, instructions entered in wills or by finding an auctioneer's business card with instructions left in a safety deposit box.

The upcoming New York International Convention and a menagerie of fifteen or more auctions during an eight day period should offer some excellent bargains for the astute collector or dealer. The auction schedule looks a bit like an over kill. I personally will be executing many commission bids and welcome more from regular clients. Several ancient sales will be called but I will be more involved in the choice Swedish and European talers appearing in these sales. We will be sending xerox copies of important listings to our preferred clients who normally would not receive this assortment of catalogs.

In this regard, we will be cutting back our mailing list once again after our November or March sale. For those individuals receiving this catalog who have not recently bid or subscribed, I would appreciate hearing from you regarding your collecting interest if you ever bid by auction. The occasion may arise when we can send you a specialized catalog or perhaps offer you some material for direct sale.

On a closing note, I want to bring to the attention of fractional taler collectors that a new 383 page book on this sorely under researched field has been written by John Davenport and is ready for immediate distribution. It is titled "Silver Gulden 1559 to 1763" and covers 60 Kreuzers, 24 Mariengroschens, 10 Groschens, 2/3 Talers and 4 Marks. The main emphasis is on Germanic fractional talers. Many of these issues are several times scarcer than similar taler types and have infrequent auction appearances. Orders can be placed with my firm at \$49.50 postpaid.

We want to extend a Seasons Greetings to our many friends in numismatics and our wishes for a pleasant holiday and even more enjoyable New Year.
